Mohammad Asif

Professional Summary

Accomplished Data Analyst with expertise in SQL, Python, and Power BI. Proficient in data cleaning, transformation, and visualization to deliver actionable insights. Strong analytical and problem-solving skills, with the unique capability to leverage Generative AI and quickly learn new technologies.

Projects

Dream Cricket League   Github Repo Link

Python   SQL   Excel   Power BI

- Created balanced teams for Dream-11's Dream Cricket League featuring players from IPL seasons 1-9.
- Formed five teams, each consisting of five batsmen, five bowlers, and one wicketkeeper using comprehensive data analysis.
- Led a team of five in cleaning data, handling missing values, and performing EDA.
- Assisted in creating the dashboard for visualizing insights.
- Collaborated with the team for an effective presentation of findings.

COVID-19 Analysis   Github Repo Link

python   Excel   Power BI

- Collected and processed COVID-19 data from various reliable sources using Python.
- Conducted extensive exploratory data analysis (EDA) and visualized trends using Matplotlib and Seaborn.
- Designed an interactive Power BI dashboard to provide insights into the spread and impact of COVID-19 in India.
- Took responsibility for data extraction, data cleaning, and EDA.
- Collaboratively presented findings with the team.
