- Handled .Net Upgradation Tool for upgrading .Net Xamarin.Forms to .Net MAUI Application.
- Developed the code in **MVVM pattern**, created the services, added the packages and dependencies, Created UI pages and functionalities using **XAML** and **C #.**
- Used Git, Azure DevOps for source access management.
- Involved in code review, performing bug fixing activities.

Project 2 - Clinical Guidance Exchange (Humana) | .NET Developer

Humana, a Medicare organization and Coordinated care plan with contracts for both Medicare and state Medicaid programs, includes multiple applications. One such vital application is CGX (Clinical Guidance Exchange). CGX serves as a platform for health-care providers, empowering them to efficiently manage consumers while delivering essential services. Modernized the application from legacy 4.7.2 to .NET 6 and upgraded APIs to ASP.NET core web APIs

Responsibilities –
- Involved in coding and implementation of the application
- Performed design and development of using ASP.NET core MVC
- Writing services methods using ASP.NET Core Web API.
- Involved in code review, performing bug fixing activities.
- Used Git, Azure DevOps for source access management.

Technical Skills

Technologies: ASP .NET Core MVC, .NET MAUI, .NET Blazor.

Languages: C#.

Web Technologies: HTML, CSS, XAML.

Database: MSSQL Server.

IDE: Visual Studio – 2019/2022.

API: ASP.NET Core Web API.

Version Control: Git and Azure DevOps.

Certification

ASP .NET Core MVC, Wipro

.NET MAUI and .NET Blazor, Wipro

Microsoft Azure Fundamentals (AZ-900)

Awards

Winner of Internal .NET MAUI Hackathon.

Acknowledged with Badges and Winner circle points for exceptional performance in projects.

Education

Sharad Institute of Technology College of Engineering
B.Tech (E&TC)

📍 Ichalkaranji, Maharashtra
📅 Aug 2017 – Aug 2021
