📄 CERTIFICATES

Responsive Web Design Certification 🔗
Freecodecamp
At FreeCodeCamp, I honed my skills in HTML, CSS, and responsive design through hands-on projects, boosting my technical expertise and problem-solving abilities.

📇 PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer with expertise in JavaScript and the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in creating functional web applications and seamless backend-frontend integration. Quick learner with proficiency in generative AI and a commitment to adapting to new tech stacks.

🖥️ PROJECTS

1. Jio savan clone | ⊕ | ⦿
HTML5 | CSS3 | Javascript | React | Git | Responsive Web Design

- Implemented a comprehensive music library using React, providing extensive access to a diverse catalog of songs across various genres.
- Developed intuitive search functionality, enabling users to easily find tracks, artists, and albums.
- Designed responsive web interfaces using HTML5 and CSS3 to ensure seamless user experience across devices.
- Integrated user authentication features to secure the application and personalize user experience.

2. Survey monkey clone | ⊕ | ⦿
JavaScript | HTML5 | CSS3

- Developed a Login and Logout feature ensuring secure user authentication.
- Implemented responsive design using HTML5 and CSS3 to support various devices and browsers.
- Collaborated with designers to create interactive survey forms enhancing user engagement.
- Optimized JavaScript code to improve the performance and scalability of the application
- Ensured cross-browser compatibility and addressed cross-platform issues to deliver a seamless user experience.

🧩 ACHIEVEMENTS

Generated Revenue of more than 15 lakhs
Umerce and 3 more
Three months before finishing 12th grade, my friends and I started an online flower pot business with ₹80,000, generating ₹15 lakhs in revenue and ₹3.5 lakhs in profit within 1.6 years.
