PROJECTS -

KASBA GANPATI DONATION WEBSITE-

Designed and developed a dynamic website using Visual Studio and backend technologies such as C#, ASP.NET and SQL Compact database. Utilized HTML, CSS, Bootstrap, and JavaScript for intuitive front-end design, enhancing user experience.

- Developed and designed a donation website for Ganapati Trust, incorporating C#, ASP.NET, and SQL Compact for efficient backend operations.
- Engineered the database structure to optimize data handling and retrieval.
- Employed HTML, CSS, Bootstrap, and JavaScript for an engaging and user-friendly front-end interface.
- Ensured seamless integration of all components for a cohesive and effective web application.

SALEEL TAMBE PHOTOGRAPHY WEBSITE -

Developed a dynamic website for a photographer using C#,ASP.NET and Compact SQL database. Utilized HTML, CSS, JavaScript, and Bootstrap 5 for the UI. Integrated features for showcasing photos, videos, audio, live performances, exhibitions, and stage events.

- Database design and management using Compact SQL.
- Admin panel development for client interaction and management.
- Front-end development using HTML, CSS, JavaScript, and Bootstrap 5.
- Integration of multimedia features for showcasing photos, videos, audio, and live performances.
- Implemented exhibition and stage event sections for comprehensive photography display.
- End-to-end development and maintenance of the website.
- Feel free to customize these statements to fit your specific experiences and achievement

WEB DEVELOPER | UPASANIGODAMA SANSTAN E-COMMERCE PLATFORM

Designed and implemented a dynamic, multilanguage e-commerce website for Upasanigodama Sanstan, specializing in the sale of spiritual products.

- Utilized ASP.NET, C#, HTML, CSS, JavaScript, and Bootstrap for front-end development.
- Integrated Compact SQL data for efficient and scalable data management.
- Developed a multilingual interface to cater to diverse user bases.
- Implemented a robust and secure admin module for streamlined content management.
- Created a donation module to facilitate seamless online contributions.
- Ensured dynamic content retrieval from the database for a responsive user experience.
- Collaborated with cross-functional teams to gather requirements and implement features.
- Conducted testing and debugging to maintain high-quality code and user experience.
