Certified in Full Stack Developer(FSD) Course

EXPERIENCE

Company : Synergy5M LLP as Software Developer (June 2022 – present)

Project1 : Potential Vendor Master

Front End - HTML5, CSS3, Javascript, JQuery, Bootstrap5
Database - MSSQL
Back End - .net mvc5

This is a platform where potential buyer & seller can access company specific data through unique login, to generate requisitions and leads for further ordering of commodities like chemicals, petrochemicals, machinery parts, engineering consumables etc.

My responsibilities were front end development using bootstrap, storing data on database and backend development using .net mvc5 for various functionality.

Project2 : Business Tracking Tools

Front End - HTML5, CSS3, Javascript, JQuery, Bootstrap5
Database - MSSQL
Back End - .net mvc5

This is a tool for users to track their business records and transactions .They can further create any buying and selling leads using this tool.

My responsibilities were front end development using bootstrap, storing data on database ,backend development using .net mvc5 for various functionality.

Company : Midbrain Technologies as a Java Developer (May 2021 - May 2022)

Project : Samarth Finance

Front End - Bootstrap, Angular
Database - SQL Server
Back End - Java

This is an application which includes options to the user to avail all types of insurance & Loans from array of financial institutions.

My responsibilities were front end development using angular routing and bootstrap, storing data on database using JDBC connections.
