EXPERIENCE

TEAM LEADER | Flawless Fine Jewellery, United Kingdom | Feb '23 – Present

- Engineered an advanced invoice system for streamlined management of invoices, orders, and tasks, ensuring enhanced operational efficiency.
- Implemented intuitive features enabling effortless tracking of order status, generation of detailed reports, and comprehensive insights into company growth, pending amounts, order costs, commissions, and benefits.
- Designed a user-friendly interface with visually appealing and easily navigable layouts, optimized for seamless access across multiple store locations and dynamic dashboard functionality.

TEAM LEADER | UPayments, Kuwait | Oct '21 – Jan '23

- Held the position of Senior Web Developer and Team Leader, overseeing end-to-end web application development.
- Conducted requirement analysis, generated functional specifications, created wireframes and prototypes, and developed and optimized software.
- Led a team of 10+ employees, providing guidance and supervision, including training for new team members.
- Collaborated closely with fellow IT team members to strategize, design, and implement innovative solutions.
- Engaged with business analysts, developers, and technical support to identify and define optimal specifications.
- Successfully introduced an improved communication process to enhance collaboration between the development team and clients, resulting in streamlined workflows.

SR. WEB DEVELOPER | UNIKWORK, Surat | Aug '19 – Sep '21

- Successfully conceptualized and prototyped an average of 7 long-term projects per year using Laravel, Node JS, and React JS technologies.
- Proficiently utilized Magento 2 and Woo Commerce platforms to develop dynamic e-commerce web applications.
- Undertook the task of upgrading and redesigning numerous projects to incorporate the latest advancements in technology.
- Acquired expertise in constructing custom e-commerce websites by leveraging various PHP frameworks in conjunction with MySQL databases.
- Developed MVC-based applications, ensuring efficient code organization and maintainability.
- Seamlessly integrated multiple payment gateways, including Pay fort, PayPal, and MasterCard, to facilitate secure and convenient transactions.
