Soft Skills

Problem Solving

Attention to Detail

Time Management

Jitesh Pal

Full Stack Web Developer

Professional Summary

Dynamic Full Stack Web Developer with proficiency in JavaScript and the MERN stack (MongoDB, Express.js, React.js, Node.js). Experienced in crafting scalable web applications with efficient server-side APIs and seamless frontend-backend integration. Excels in leveraging Generative AI and rapidly learning new technologies.

Projects

Movies rating Site
Live Demo Link   Github Repo Link

React   JavaScript   RESTful APIs   Node.js

- Developed a fully responsive movie rating website with React and Redux for state management.
- Integrated various APIs to fetch movie data and reviews, powered by a Strapi backend.
- Used SCSS for styling, ensuring clean and maintainable CSS with features like variables and mixins.
- Implemented a seamless user experience across devices through responsive design.

YouTube UI Clone
Live Demo Link   Github Repo Link

Next.js   Express.js   MongoDB   JavaScript

- Developed a YouTube clone with React, implementing video playback, user authentication, and comment sections.
- Utilized RESTful APIs to dynamically fetch and display video data.
- Incorporated Chakra UI for a polished and responsive user interface.
- Ensured a seamless user experience across devices through responsive design.
