EDUCATION

Arts (Economics)
ICLES Motilal Jhunjhunwala College
Maharashtra
July 2018 - April 2019

TECHNICAL SKILLS

- Use Spring Tool Suite
- Use Postman App
- Git
- Basics of Java
- Selenium
- API testing
- Basics of JavaScript

SOFT SKILLS

- Teamwork
- Time Management
- Problem Solving

PROFESSIONAL SUMMARY

Dynamic SDET/QA engineer proficient in Python, algorithmic error identification, and testing methodologies. Skilled in designing and executing test scenarios for algorithm-intensive components. Strong problem-solving skills, attention to detail, and collaborative mindset contribute to effectively identifying and communicating issues for timely resolution. Thorough documentation ensures accurate reporting.

PROJECTS

Manual Testing   Live Demo Link

- Crafted detailed test scenarios and test cases for critical e-commerce features like 'Login', 'Logout', 'Search', 'Payment', and 'Add to Cart'.
- Collaborated closely with the development team to understand feature requirements and ensure comprehensive test coverage.
- Identified and documented software issues with clear steps for reproduction, focusing on algorithmic and logic errors.
- Participated in developing test plans and ensured thorough documentation for smooth execution.
- Utilized Excel sheets to organize and manage test cases and scenarios, facilitating seamless collaboration and documentation.
