PROFESSIONAL SUMMARY

Detail-oriented and resourceful SDET skilled in automation and manual testing, designing and executing test scenarios, and analyzing system requirements. Proficient in developing robust test cases, ensuring software quality with rigorous methodologies, and optimizing testing strategies. Adept at delivering scalable solutions and passionate about driving innovation in QA processes while contributing to dynamic, high-performing teams.

EDUCATION

Software Development Engineer in Test

Masai School

August 2024-present

B.Com

Sanatana Arts and Science College

July 2021 - March 2024

PROJECTS

1. Clinic Cases Website - Manual Testing | ⊕ | ○

Jira | Zephyr | MS Excel | MS Word

- Conducted comprehensive manual testing on Clinic Cases Website, identifying critical bugs and reporting them using Jira.
- Collaborated with development team to understand requirements and ensure feature completeness.
- Developed and executed detailed test plans and test cases, with a focus on algorithmic and logic error detection.
- Reported and documented reproducible software issues, using Zephyr for test management and Jira for bug tracking.
- Enhanced QA processes by leveraging MS Excel for data analysis and MS Word for documentation.

2. Automation Test Store | ⊕ | ⦿

JavaScript | Cypress | MS Excel | MS Word | Node.js

- Designed and executed automated test scenarios using Cypress to identify software issues, specifically targeting algorithmic and logic errors.
- Collaborated with development teams to understand software requirements and feature implementations.
- Documented and reported identified issues with precise steps for reproduction, utilizing MS Word for detailed reporting.
- Developed comprehensive test plans and cases for algorithm-intensive components.
- Worked closely with developers to ensure timely resolution of bugs, enhancing team collaboration.

TECHNICAL SKILLS

Cypress | Postman | JavaScript | Java | CSS | HTML | MS PowerPoint | MS Word | MS Excel | Selenium

SOFT SKILLS

Time Management | Problem Solving | Adaptability
