WORK EXPERIENCE

Profile - Dotnet programmer

DNS ERP PVT LTD PUNE

August 2023 - present

I am responsible for creating web-pages using ASP.NET,I am a full stack developer, I use ADO.NET for database connectivity and VB.NET as a programming language.

I work on Visual Studio 2010 and SQLServer 2014 for software development. I have worked on different ERP Project's having 100+ modules.

PROJECT

Tiffin Management System

(CDAC Project)

platform - Spring-boot(back-end), React(front-end), Postman(API testing)

Description - The online tiffin service 'ghar-ka-dabba' website was intended to provide a complete solution for vendors, customers as well as internal users (admin) as a single gateway using the internet. Vendors could be anyone who want to setup their tiffin service center but doesn't have platform for the same. especially for homemakers who wish to have a source of side income.

It enables vendors to provide tiffin service online, and consumers to browse through all the available tiffin services and order tiffin without physically visiting tiffin service center.
