SUMMARY

Front-End Web Developer skilled in creating responsive, user-friendly web applications using **React.js**, **HTML**, **CSS**, **JavaScript**, **Bootstrap**, and **Tailwind CSS**. Completed a 3-month training at **SoluLab**, contributing to live projects by developing scalable UIs and integrating external APIs for real-time data. Strong understanding of modern web design principles and experienced in Agile development, delivering high-quality, mobile-first solutions.

EXPERIENCE

React Js

SoluLab | Blockchain Development Company   May 2024 - October 2024, Ahmedabad

· **Completed a 3-month training in front-end web development**, learning **HTML, CSS, JavaScript, Bootstrap, and Tailwind** to create responsive websites.
· **Built user-friendly interfaces (UI)** using **React.js**, applying modern design techniques to improve user experience and website performance.
· **Worked on live projects**, developing scalable and reusable components with **React.js** and connecting to **RESTful APIs** to keep data consistent.
· **Used Tailwind CSS** to create mobile-friendly designs, following current web design standards and ensuring compatibility across different browsers.
· **Gained practical experience in Agile development**, working with teams to complete high-quality projects on time and improving problem-solving abilities.

PROJECTS

Project - 1

Project · unique-entremet-ca79d6.netlify.app/

· **Developed a dynamic e-commerce website** using **React.js** and **Tailwind CSS**, integrating external **APIs** to display real-time product information and enhance user engagement.
· **Managed state and asynchronous data flow** with **Redux** and **Redux-Saga**, ensuring smooth product listings and efficient user interactions throughout the platform.
· **Implemented Firebase authentication**, enabling secure user login and account management while maintaining a seamless and responsive user interface.

Project - 2

beautiful-basbousa-7afe93.netlify.app/

· **Designed responsive user interfaces (UI)** using **HTML, CSS, and Bootstrap**, ensuring a seamless experience across various devices and screen sizes.
· **Utilized Bootstrap's grid system and components** to build consistent and well-structured web pages, improving development efficiency and maintainability.
· Focused on **cross-browser compatibility and mobile-first design**, ensuring the UI worked flawlessly across different browsers and platforms.

EDUCATION

Bachelor of Engineering

Minor in Computer Science · Truba Institute of Engineering & Information Technology · Bhopal · 8.11

SKILLS

HTML,CSS,JAVASCRIPT,BOOTSTRAP,TAILWIND,REACT JS,
