Education

Full Stack Web Development (Full time)
Masai School, Bengaluru
Sep 22 - Present

Diploma in Electrical Engineering
MBC Institute of Engineering and Technology, West Bengal
Jun 16 - Jul 19

Technical Skills

HTML5 · React · CSS3 · JavaScript · Chakra UI · Express.js · Node.js · MongoDB · Redux · RESTful APIs · Prompt Engineering · TypeScript · Git · Angular

Soft Skills

Problem Solving · Time Management · Adaptability · Teamwork

Prajit Kumar Santra

Professional Summary

Highly skilled Full Stack Developer proficient in MERN stack, with a strong track record of building solo and collaborative projects. Adaptable and eager to embrace Generative AI. Swiftly learns new tech stacks. Valuable addition to any team, blending technical expertise with exceptional problem-solving and communication skills.

Projects

Food2Door   Live Demo Link   Github Repo Link

React · Chakra UI · Redux

- Developed a robust online food delivery application, enabling users to register, authenticate, and seamlessly place orders.
- Implemented user authentication and authorization for secure access to the application.
- Spearheaded the creation of Customer and Category modules, ensuring a smooth user experience.

Gamezy   Live Demo Link   Github Repo Link

React · Styled Components · Redux · Axios · Node.js · Express.js · MongoDB

- Gamezy is an immersive online gaming and movie streaming platform designed for a seamless user experience.
- Implemented user authentication using a MongoDB backend server to ensure secure access to user accounts.
- Designed a dynamic Product Page with advanced sorting and search, enhancing engagement, and implemented a secure Payment Page for seamless transactions.

BookHavenX   Live Demo Link   Github Repo Link

Angular · Tailwind CSS · TypeScript · Node.js · Express.js · OpenAI

- Revolutionized online book shopping with BookHavenX, a dynamic platform uniting a vast bookstore with an engaged reading community.
- Implemented feature-rich bookstore, discussion forum, and reading lists.
- Enabled book reviews, ratings, and author-reader interactions.
- Integrated GPT-based chatbot for personalized book recommendations.

Code Converter App   Live Demo Link   Github Repo Link

React · Chakra UI · OpenAI · JavaScript · Node.js

- Developed a web-based Code Converter App to facilitate seamless code conversion between various programming languages.
- Implemented code debugging functionality and code quality checking mechanisms.
