SDET/QA

Professional Summary

Dedicated Software Testing professional with expertise in Manual, Automation, and Functional Testing. Proficient in Java and JavaScript, I excel in test planning, bug identification, and enhancing application usability. Committed to continuous learning, I drive quality-driven success and ensure robust, reliable software solutions.

Experience

Paarsh Infotech Pvt. Ltd. | Software Tester | August 2023 – February 2024

- Expertly designed and implemented comprehensive manual test cases for various web projects, identifying and documenting critical bugs to enhance functionality and user experience.
- Collaborated closely with development teams to manually troubleshoot issues, refine testing processes, and contribute to the continuous improvement of the software development lifecycle.

Projects

Naaptol - Automation and Manual Testing Project   Live Demo Link   Github Repo Link

Selenium   HTML5   CSS3   Java   Cucumber

TestNG   JUnit   Git

- Led web application testing using both manual and automation techniques.
- Developed and executed detailed test cases, focusing on algorithmic and logic errors.
- Automated testing processes with Selenium and Java, improving testing efficiency.
- Tracked and documented bugs in JIRA, providing clear steps for reproduction.
- Collaborated with developers to ensure timely bug resolution.

QAFOX - Automation and Manual Testing Project   Live Demo Link   Github Repo Link

JavaScript   HTML5   CSS3   Cypress

- Led web application testing using manual and automation techniques.
- Developed and executed detailed test cases with a focus on complex logic.
- Automated testing processes with Cypress and JavaScript, increasing test coverage.
- Worked closely with developers to resolve identified issues promptly.
