Objective

To start a career in IT, applying my technical skills effectively and growing professionally.

Education

Vishnu Institute of Technology   **Bhimavaram**
Bachelor of Technology   *2021–2025*
○ Branch: Information Technology

Elite Jr College   **Visakhapam**
Intermediate   *2019–2021*

Ravindra Bharathi School   **S.Kota**
SSC   *2019*

Skills

Programming Languages: Python, C

Web Development: HTML, CSS, JavaScript

Database Management: SQL

Cloud Services: ServiceNow, AWS RedShift, Snowflake

Soft Skills: Strong organizational and time management skills, communication and interpersonal skills, ability to work independently and as part of a team, good leadership qualities

Projects

Heart Disease Predictor Project   **2024**
Description   *VITB*
Developed a machine learning-based application to predict risk of heart diseases using patient health data. As team lead, I oversaw the development of machine learning-based Heart Disease predictor application, achieving an 85 percent accuracy rate in predicting heart disease.

Weather Predictor Project   **2023**
Description   *VITB*
Developed a machine learning-based predictor to forecast daily temperature using historical weather data and predictive analytics techniques. Developed a predictive model with 80 percent accuracy in weather forecasting. Implemented user-friendly interface for easy access and interpretation of weather forecasts.

Courses and Certifications

○ ServiceNow Certified System Administrator- Skilled in managing, configuring, and maintaining ServiceNow instances effectively
○ ServiceNow Certified Application Developer- Proficient in designing, developing, and implementing applications on ServiceNow platform
○ Snowflake- Acquired skills in Snowflake for cloud-based data warehousing,focusing on SQL querying and data integration
○ Kaggle Certification in Python
○ AWS Machine Learning Certification
○ Cisco Cyber Security Certification
○ AWS Academic cloud foundation

Internships

AICTE Internship
AIML   *2023*
Engaged in an immersive internship under AICTE, focused on exploring applications of Artificial Intelligence and Machine Learning.

Swetcha Internship
Machine Learning   *2024*
Participated in a structured internship program, specializing in Machine Learning applications.
