Education

Data Analyst (D.A)
Masai School, Bangalore
August 2024-present

Bachelor of Commerce (General)
Osmania University, Telangana
August 2021 - June 2024

Technical Skills

Data Analysis SQL

Python Data Visualization

Power BI

Data Preprocessing MySQL

Soft Skills

Problem Solving

Attention to Detail

Adaptability Teamwork

Effective Communication

Professional Summary

Dynamic Data Analyst with expertise in Python, MySQL, and Power BI, adept at creating impactful dashboards and visualizations. Strong problem-solving skills and effective communication in both technical and non-technical settings. Rapidly learns new tools like Generative AI, enhancing data-driven decision-making.

Projects

Solar Power Plant Dashboard Live Demo Link Github Repo Link

Git Python Pandas NumPy

Matplotlib and Seaborn Jupyter Notebook

- Performed extensive data cleaning on sensor data to ensure quality and consistency.
- Utilized Python and visualization tools for clear communication of data-driven insights.

The-Predictors Github Repo Link

Python PowerBi MySql PowerPoint

- Utilized Python for data cleaning and processing, ensuring high data quality before storing it in a MySQL database.
- Presented insights and findings to both technical and non-technical audiences, supporting data-driven decision-making processes.

Spotify-dataset Github Repo Link

Git MySQL Power BI PowerPoint Python

SQL Queries

- Performed data cleaning, preprocessing, and exploratory analysis to derive actionable insights.
- Created an interactive Power BI dashboard to visualize key metrics and insights, ensuring clear communication to stakeholders.
