Paurnnima Sharad Dhamdhere

.Net Developer

paurnimawaje50@gmail.com | +919762988931 | Pune, India

Summary

With 5+ years of experience, I thrive in creating seamless interfaces and powerful backends. Specializing in C#, VB.Net, SQL, and MS SQL Database. My expertise extends to desktop application development.

Skills

VB .Net .NET, C#, .Net Framework, Microsoft SQL Server (MSSQL), MySQL.

Work Experience

Cinetech India Enterprises - Pune, India

Software Developer (**.Net** Developer) - **June** 2021 – Now

- My journey started with UWCERP Application, an Enterprise Resource Planning (ERP) system designed to streamline business processes and maximize productivity. In this project, I excelled in various roles, from requirement analysis and system design to development and deployment, leveraging my skills in .NET Framework and SQL Server.
- Additionally, I developed key features for the 'Payroll', including Employees Details, Employee Salary, Attendance Management, Reports and Pay slips generation. I have implemented formula generation based on grade of employees which are used to generate pay slips.
- Developed key features for the Payroll, including Employee Details, Employee Salary, Attendance Management, Reports, and Pay slip Generation using VB .Net.
- I have implemented formula generation based on grade of employees which are used to generate pay slips.

Cinetech India Enterprises - Pune, India

Software Developer (**.Net** Developer) - **Sept** 2014 – **Apr** 2017

- During training, I delved into "Project Planner," a robust Windows Form application designed to simplify workflow management and task tracking, similar to Jira.
- Post-training, I took charge of the project, leading its development, design, and deployment phases. I focused on creating a seamless user interface and a powerful backend, transforming it into an indispensable tool for project management.
- Additionally, I worked on an ERP project where I enhanced critical functionalities. Using technologies like C#, .NET, and SQL Server, I implemented features that streamlined business processes and significantly improved system performance.
