Shreyashi Chavan

Professional Summary

Expertise in Power BI, SQL, Python, Excel, and Machine Learning for data analysis and visualization. Skilled in creating dashboards, processing large datasets, and extracting actionable insights to enhance business strategies. Proficient in exploratory data analysis (EDA), trend identification, and predictive modeling. Eager to solve real-world challenges with analytical skills and data-driven decision-making.

Projects

Indian Statup Funding   Github Repo Link

Python   SQL   Power BI

- Developed Power BI dashboards to visualize funding amounts and industry trends, enhancing data-driven decision making.
- Utilized SQL to efficiently store, retrieve, and analyze data on investment rounds and funding patterns.

Banking Campaign 2775   Github Repo Link

Python   Power BI   SQL

- Conducted data cleaning and organization to prepare large datasets for analysis, ensuring high data quality.
- Performed exploratory data analysis (EDA) to identify trends and patterns, providing valuable insights.

Shark Tank   Github Repo Link

Python   Streamlit

- Gathered and cleaned data using Python to ensure accurate analysis of Shark Tank India pitches and deals.
- Built an interactive dashboard in Streamlit to visualize investment trends, equity, and valuations

Fast Food Trackers   Github Repo Link

Python   SQL   Power BI

- Collected and cleaned data from multiple sources using SQL and Python for comprehensive analysis.
- Designed and developed interactive Power BI dashboards to visualize key sales trends and performance indicators.
