MongoDB

Responsive Web Design

CSS3 HTML5 JavaScript

Anand Kumar

Full Stack Web Developer

Professional Summary

Accomplished Full Stack Web Developer specializing in the MERN stack with expertise in JavaScript, React.js, and Node.js. Exhibits strong problem-solving capabilities and employs Generative AI to enhance efficient application development. Proactively stays updated with latest trends and swiftly adapts to new technologies.

Projects

Schema Sketchers   Live Demo Link   Github Repo Link

JavaScript HTML5 CSS3

- Developed a React-based tool for designing, visualizing, and managing database schemas with intuitive user interface.
- Created modular and scalable schema elements with React components, ensuring easy customization and expansion.
- Implemented features for table creation, relationship visualization, and field customization, enhancing database management.
- Built-in support for undo/redo actions, keyboard shortcuts, and a to-do list to improve workflow efficiency.
- Contributed to the landing page with a focus on UI/UX, ensuring seamless user interaction.
