# Ashish Dadheech

**SDET/QA**

## PROFESSIONAL SUMMARY

Dynamic SDET/QA professional skilled in adept at designing and executing test scenarios to identify and resolve algorithmic and logic errors. Strong problem-solving abilities and collaborative mindset to enhance team efficiency. Quick learner capable of leveraging Generative AI and adapting to new technologies swiftly.

## WORK EXPERIENCE

**AM Research**

Research Analyst

**Job responsibilities:**

- Developed analytical models to enhance algorithmic efficiency, aligning with the focus on identifying logic errors.
- Collaborated with cross-functional teams to gather requirements, enhancing understanding and development of software features.
- Prepared detailed reports and documentation, emphasizing the importance of clear steps for issue reproduction.
- Utilized problem-solving skills to analyze data patterns and trends, reflecting the ability to identify and communicate software issues.

## PROJECTS

**1. Open Cart Website |** 

- Designed and executed test scenarios to identify software issues in the Open Cart Website, focusing on algorithmic and logic errors.
- Worked with developers to resolve identified bugs in a timely manner, ensuring a seamless user experience.

**2. Selinium_Cucumber_Project |** 

- Designed and executed comprehensive test scenarios using Selenium and Cucumber to identify software issues, focusing on algorithmic and logic errors.
- Collaborated with the development team to understand software requirements and designed automated tests for algorithm-intensive components.

**3. Chai-iayah Ecommerce Website |** 

- Developed a web platform inspired by India's chai culture, featuring an interactive product showcase.
- Designed a user-friendly navigation system for easy browsing of chai, coffee, and snacks.
- Implemented a media scroller for seamless product exploration.
- Created sale banners to highlight special deals and seasonal offers.
- Built responsive UI using HTML, CSS, and JavaScript for a seamless user experience.
- Integrated Font Awesome icons and custom CSS for a modern and aesthetic design.
