## Soft Skills

Resourcefulness

Attention to Detail

Time Management

# Vikrant Chaudhary

## Professional Summary

Adaptable and detail-oriented SDET/QA with medium proficiency in Python and a solid understanding of algorithmic and logic errors. Skilled in crafting and executing test scenarios and documenting issues. Proficient in generative AI, with the capability to swiftly adapt to new tech stacks.

## Experience

**Zoxima Solutions** | Software Developer Intern    February 2023 – September 2023

- Developed and managed database structures for the Bisleri Van Sales app on PowerApps, enhancing both data organization and application efficiency.
- Tested functional features to ensure smooth performance and optimal user experience, identifying and addressing potential issues proactively.
- Collaborated effectively with team members to deliver project milestones on time, demonstrating strong teamwork and project management skills.

## Projects

**Wikipedia HomePage**    Github Repo Link

Cypress | Page Object Model | JMeter | JavaScript

- Automated end-to-end testing using Cypress and Page Object Model, focusing on functionality, responsiveness, and usability.
- Performed comprehensive testing of the search bar, covering both common and edge cases.
- Validated language dropdown functionality across 300+ languages and ensured link reliability with 99.9% accuracy.

**Haven Homes**    Github Repo Link

Google Sheets | Test Case | Trello

Manual Testing

- Conducted manual end-to-end testing with an emphasis on functionality, reliability, and user-friendliness.
- Validated login and registration processes, ensuring robust functionality and security.
- Delivered thorough test documentation to improve test coverage and facilitate future testing efforts.
