SOFTWARE ENGINEER

Adaptable Software Engineer excelling in mastering new technologies, collaborating effectively, and delivering impactful solutions.

KEY COMPETENCIES

Angular, Angular Material	PHP, CodeIgniter,	AWS S3 Bucket, AWS EC2
TypeScript, JavaScript,	Python, SQL, Git,	AWS Cloudfront, REST APIs
JQuery, HTML/CSS,	MS Excel, Google Sheets	UploadCare

PROFESSIONAL EXPERIENCE

Zehntech Technologies Pvt. Ltd.   **Feb 2024 - Present**
Software Engineer

- Proficient technical developer skilled in JavaScript, TypeScript, HTML/CSS, and Angular, adept at leading transformative projects.
- Successfully developed Kopyst Extension, a dynamic platform facilitating comprehensive document creation.
- Played a pivotal role in the enhancement of JS7, an open-source Job Scheduling solution, leveraging expertise to drive innovation.
- Demonstrated ability to refine technical skills while leading projects to achieve significant advancements.

VihaTech Software Solutions Pvt. Ltd.   **Oct 2022 - Feb 2024**
Software Engineer

- Proficiently managed and contributed to two projects, namely castindia.in (now diffr.co) and univen.co, showcasing expertise in both front-end and back-end development
- Demonstrated adeptness in a wide range of technologies, including Angular2+, Angular Material, Bootstrap, HTML, CSS, JavaScript, jQuery, Ng Bootstrap, PHP, Codeigniter, Python, Django, and AWS, ensuring comprehensive and robust development solutions
- Successfully integrated various third-party APIs, such as Uploadcare, AWS S3 Bucket, Digi locker, bank account verification, payment gateways, and a variety of REST APIs, facilitating seamless functionality and efficient data management throughout the projects.

VihaTech Software Solutions Pvt. Ltd.   **Oct 2021 - Sept 2022**
Delivery Software Engineer

- As a Delivery Software Engineer, successfully contributed to two prominent projects, namely castindia.in and studiorentals.in
- Utilized Angular2+, HTML, CSS, TypeScript, JavaScript, and jQuery for front-end development, ensuring intuitive and engaging user interfaces
- Leveraged PHP and Codeigniter for back-end development, effectively ensuring robust functionality and seamless operations across the projects.

VihaTech Software Solutions Pvt. Ltd.   **Jul 2021 - Sept 2021**
Intern

- Diligently acquired new proficiencies in Angular and PHP Codeigniter during my internship, showcasing a keen ability to grasp and apply new technologies efficiently
- Actively contributed to project advancements by delivering my best efforts and insights, making a meaningful impact on project outcomes and team dynamics
- Engaged in a steep learning curve, effectively integrating newly acquired skills to enhance project functionalities and overall productivity
- Demonstrated a proactive approach to learning and problem-solving, leveraging acquired knowledge to support and strengthen ongoing project development and implementation processes.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering	**12th**	**10th**
Computer Science And Engineering	Indore Public School	Jawahar Navodaya Vidyalaya
Acropolis Institute of Technology & Research
