Education

Software Development Engineer in Testing (STED)
Masai
August 2024 - December 2024

Technical Skills

Selenium | JavaScript

Java | Cypress | Postman

Soft Skills

Problem Solving

Effective Communication

Time Management

Teamwork

Achievements

Masai Speaking Marathon 🔗
Masai

Vikash Kumar Bharti

Professional Summary

Dynamic SDET with expertise in designing test scenarios, identifying algorithmic errors, and utilizing Python for software testing. Proficient in documenting issues and collaborating with development teams. Quick learner with the ability to leverage Generative AI in testing environments and rapidly adapt to new technology stacks.

Projects

QAfox.com   Github Repo Link

Git | JavaScript | Cypress

- Participated in end-to-end testing of web applications using JIRA and Zephyr for test case management and defect tracking.
- Authored and executed test cases for functionalities such as login, sign-up, and logout, ensuring comprehensive functional coverage.
- Validated system behavior for various inputs, focusing on email formats and password strength.
- Documented test results, identified bugs, and collaborated with the development team for quick resolution.
- Assessed UI/UX consistency and responsiveness across multiple devices, ensuring optimal user experience.

Hack-hurdles   Github Repo Link

- Conducted manual testing on an e-commerce platform focusing on critical functionalities like text input and formatting.
- Designed and executed detailed test plans and test cases to ensure platform stability and performance.
- Documented test results and logged bugs with reproduction steps to facilitate efficient communication with developers.
- Used Decision Table technique to analyze test scenarios and enhance coverage for edge cases.
- Utilized Google Sheets and Excel for test case documentation and bug tracking.
