Jabalpur (M.P)

Objective:

Highly motivated and dedicated .NET Developer with four months of intensive training in .NET development seeking a challenging position to utilize my skills and contribute to the success of a dynamic organization.

Education:

Bachelor of technology in Computer Science [RGPV], [JABALPUR]   grade 7.01

Technical Skills:

- Programming Languages: C#, ASP.NET , JAVA , C++
- Web Technologies: HTML, CSS, JavaScript, jQuery
- Frameworks: .NET Framework, .NET Core
- Databases: SQL Server, MySQL
- Version Control: Git
- Integrated Development Environments (IDE): Visual Studio, Visual Studio Code
- Operating Systems: Windows, Linux
- Familiarity with Agile methodologies

Professional Experience :

DOTNET Developer trainee [CIVICA India], [Vadodara] [**Sept 2021**] – [**Feb2022**]

During the four-month training program in .NET development, I acquired comprehensive knowledge and hands-on experience in various aspects of .NET development. The program covered the following topics:

- Object-oriented programming principles
- ASP.NET web development using MVC framework
- Database design and implementation using SQL Server
- User interface design and development with HTML, CSS, and JavaScript
- Building RESTful APIs using ASP.NET Web API
- Debugging, testing, and deploying .NET applications
- Version control using git

Projects:

During the academic, I completed several projects to apply my learning and enhance my practical skills. These projects included:

1. **Online Shopping Website:**
   - Developed a responsive e-commerce website using ASP.NET MVC framework.
   - Implemented user authentication and authorization using ASP.NET Identity.
   - Integrated a secure payment gateway for online transactions.
   - Utilized SQL Server for database management and data persistence.
2. **Task Management System:**
   - Created a web-based task management system using ASP.NET Web API.
   - Implemented CRUD (Create, Read, Update, Delete) operations for tasks.
   - Incorporated user authentication and role-based access control.
   - Utilized AngularJS for the frontend development and SQL Server for data storage.

Experience:

While I have limited professional experience in the field, I actively participated in group projects during the training program, collaborating   with teammates and effective communicating idea and solutions. These experiences helped me develop teamwork, problem-solving, and time skills management

Personal Projects:

Apart from my training program, I have also worked on personal projects to further enhance my skills and knowledge in .NET development. These projects demonstrate my ability to work independently and showcase my passion for programming.
