Guru Ghasidas Vishwavidyalaya, Bilaspur C.G | 2014 – 2017

Projects

Kanha (Tutoring Platform)

- kanhahometutions.com
- **Technology & Database:** Laravel 10, MySQL
- **Tools:** VS Code, SQL Workbench, Postman
- **Type:** Web & Mobile App
- A platform connecting students with tutors based on subject, location, time, and fee. Tutors subscribe to unlock student contact info.

Contolio

- contolio.com
- **Technology & Database:** Laravel 10, MySQL
- **Tools:** VS Code, SQL Workbench, Postman
- **Type:** Mobile App
- A cloud-based property management platform for handling units, tenants, payments, maintenance, and digital records.

Aqlut (Food Delivery App - Qatar)

- aqlut.net
- **Technology & Database:** Node.js, MySQL
- **Tools:** VS Code, SQL Workbench, Postman
- **Type:** Web & Mobile App
- Enhances dine-in, takeaway, and delivery experiences. Features dynamic upselling, error reduction, and POS integration.

Achievements

- 🔒 **Payment Gateway Integration:** Integrated Razorpay into the tutoring platform in 1.5 days, ensuring secure web & mobile payments.
- 🚚 **Advanced Delivery System:** Customized Shiprocket's API from single-vendor to multi-vendor in just 8 days, enhancing logistics for both platforms.
