PROFILE SUMMARY

Over 3 Years of IT experience, I work with a team of software engineers with development and testers, using automation and manual testing techniques. Previously, I worked on Jenkins language for automation testing and on telecommunications domain, using tools such as Camunda, Kafka, and microservice. I also have experience in API testing, IBM app connect tool, and .net development. I am passionate about learning new technologies and delivering quality software products. I value collaboration, innovation, and customer satisfaction. I can bring diverse perspectives and experiences to the team, as I have worked on different domains, platforms, and tools.
