Passionate about staying abreast of emerging technologies and leveraging them to enhance development processes. Strong problem-solving skills and a commitment to producing clean and efficient code.

PROJECTS

Jarvis- A Desktop Voice Assistant   07/2023

College, Nagpur

Python Project

- I made this project on my college level as a final year project using Python and using its all libraries . In this project a desktop assistant only works on your voice commands and shows result according to it for this I used vs-code as a software.
  Go through it for source code: https://github.com/SakshiNarad/JarvisByPython

Login Authentication   10/2023

Oasis Infobyte ,Remote

Web Developer and design project

- Login Authentication Website is the One Of the project Which I created in this Internship Period Wherer you can register as a new Person login as a existing user and it will open new page.
- Go through it for source code: https://github.com/SakshiNarad/Login-Authentication

Temperature Converter   11/2023

Remote

Web Developer and Designer Project

- internship I made a temperature converter website which helps you to   convert temperature from one unit to another using your choice.

  Go through it for source code:https://github.com/SakshiNarad/Temperature-Converter
